

Expendables

Expendable Units and Parts

Our supply stores carry a complete range of expendables required by the Oil and Gas Drilling industry. Our staff are experienced and knowledgeable, and there to help you select the right expendable item and give preventative maintenance advice.

Valves/Springs

We offer a full range of valves including the Baker Style and Mission Style. As for other items we carry a comprehensive range of valve springs.

Valve seats

To compliment our valve offering we carry the Mission style 4-web valve seats and the Baker style 3-web valve seat.

Liner and valve cap gaskets

Liner and valve cap gaskets are carried to cover all valve and liner types.

Pistons

Various sizes to suit and wide range of models.

Triplex pony rods

Various sizes to suit a wide range of models.

EXPENDABLES

BRIDGES EQUIPMENT LTD

Bridges Equipment has been providing new and used equipment along with quality service to the oil and gas drilling industry since 1984. We are a company dedicated to supplying quality products, service and support, all at a fair price. Our slogan means what it says. We supply all that the drilling rig requires.....

**"From the Crown.....
.....to the Ground"**

Bridges Equipment product, service offerings and resources include:

- Located on over 80 acres, our main facility in Odessa, TX is equipped to provide our customers with all their equipment needs.
- New Equipment ranging from complete rigs and drawworks to triplex mud pumps and traveling equipment. We also offer new rotary tables, swivels and BOP's.
- Complete reconditioning facilities with the capability to return most drilling equipment to O.E.M. specifications.
- Full service machine shops to guarantee on time, accurate delivery and quality of supply.
- Expert unitization of new and reconditioned triplex mud pumps.
- Capabilities to fabricate custom skids to meet you needs, however unique the application.

Our supply stores specialize in supplying all the equipment the oil and gas drilling equipment industry requires to operate and support their activities. In addition to our Odessa store, we have a facility in Cresson, TX, to serve customers in that region

Bridges Equipment maintains a full range of triplex mud pump packages as part of an extensive rental fleet
