

## Supply Stores

### The Oil & Gas Industry's "One-Stop-Shop"

Our supply stores specialize in supplying all the equipment the oil and gas drilling equipment industry requires to operate and support their activities. In addition to our Odessa store we have a facility in Cresson, TX, to serve customers in that region.

#### Group One

##### CHARGE PUMPS

We carry a full range of charge pumps to meet all requirements. Our staff are very knowledgeable and there to assist you in your selection.

#### Group Two

##### FLUID END EXPENDABLES

Our supply stores are well stocked with expendable (consumable) parts that rig owners require for maintenance and replacement.

#### Group Three

##### FLUID END ACCESSORIES

Replacement parts machined to the highest standards. Full range of accessories to meet all requirements.

#### Group Four

##### SPROCKETS & CLUTCHES & CHAINS

Whatever your rig equipment's drive arrangement we have the parts you will require for repair and maintenance.

#### Group Five

##### VALVES, SWIVELS & PACKING

We stock a complete range of valves, swivels and packing to ensure our customers prompt service and minimum down-time.

#### Group Six

##### BLOW OUT PREVENTION

Bridges have over 25 years experience in supplying the oil and gas industry and are fully conversant with all the required BOP equipment.

#### Group Seven

##### BUSHINGS

We ensure only the best bushings are offered to our customers and our supply store personnel are available to assist with all your questions.

#### Group Eight

##### GEAR END PARTS

Bridges Equipment have extensive machine shop capabilities and are able to offer their customers warranted new and remanufactured gear-end parts.

*"From the Crown..... ..to the Ground"*

## BRIDGES EQUIPMENT LTD

Bridges Equipment has been providing new and used equipment along with quality service to the oil and gas drilling industry since 1984. We are a company dedicated to supplying quality products, service and support, all at a fair price. Our slogan means what it says. We supply all that the drilling rig requires.....

**"From the Crown.....  
.....to the Ground"**

Bridges Equipment product, service offerings and resources include:

- Located on over 80 acres, our main facility in Odessa, TX is equipped to provide our customers with all their equipment needs.
- New Equipment ranging from complete rigs and drawworks to triplex mud pumps and traveling equipment. We also offer new rotary tables, swivels and BOP's.
- Complete reconditioning facilities with the capability to return most drilling equipment to O.E.M. specifications.
- Full service machine shops to guarantee on time, accurate delivery and quality of supply.
- Expert unitization of new and reconditioned triplex mud pumps.
- Capabilities to fabricate custom skids to meet your needs, however unique the application.

Our supply stores specialize in supplying all the equipment the oil and gas drilling equipment industry requires to operate and support their activities. In addition to our Odessa store, we have a facility in Cresson, TX, to serve customers in that region

Bridges Equipment maintains a full range of triplex mud pump packages as part of an extensive rental fleet
